Career Objective

Mechanical Engineering student with experience in autonomous systems, robotics, and vehicle design, seeking opportunities in product development, UAV systems, and intelligent mobility solutions.

Education

RGUKT, Basar 2027
B.Tech Mechanical Engineering — CGPA: 7.6/10

Internship

Kinetron Technologies Nov 2025 – Mar 2026
VTOL Tilt Motor, Waterproof Drone, Spying Helicopter Development

- Engineered tilt motor mechanism for VTOL systems, improving transition stability and reducing vibration.
- Contributed to development of waterproof drone and surveillance helicopter platforms.
- Supported prototype validation and mechanical integration of UAV subsystems.

Projects

Autonomous Rover Arduino, Sensor Fusion, Embedded Systems Mar 2026

- Implemented Arduino-based autonomous navigation using sensor integration for obstacle avoidance.
- Applied real-time decision logic to improve navigation reliability.

Go-Kart Design SolidWorks, ANSYS, FEA, Vehicle Dynamics Feb 2026

- Optimized chassis design, reducing weight by 9 kg while maintaining strength.
- Achieved 0–100 m acceleration in 5.4 s via drivetrain tuning.

NIDAR Scout & Cargo Drone Composites, UAV, FPV Systems Dec 2025

- Developed UAV platforms for surveillance and payload delivery.
- Used carbon fiber composite plates to improve strength-to-weight ratio.

Stair Climbing Robot Arduino, Mechanism Design, Robotics Mar 2025

- Designed tracked mechanism enabling efficient stair traversal.
- Integrated Bluetooth-based control system.

Skills

CAD/CAE: AutoCAD, SolidWorks, CATIA, ANSYS (FEA)
Embedded Systems: Arduino, ESP32, Sensor Integration
Manufacturing: Welding, Machining, Composite Fabrication, 3D Printing
Programming: Python, C, MATLAB
Tools: MS Excel
Domains: Robotics, Autonomous Systems, UAV Systems, Vehicle Dynamics, Machine Learning (Basics)

Achievements & Certifications

- 3rd Prize, Tech Fest 2026
- Certified SolidWorks Associate (CSWA)
- Completed Modern Robotics Specialization – Northwestern University (Coursera)
- Chess Rating: 2000 (Rapid)
- TS POLYCET Rank: 60 (2021)
